

An Outlook on Graph Stream Processing Benchmarks

Riccardo Tommasini - 16/08/2021 - LDBCW@VLDB

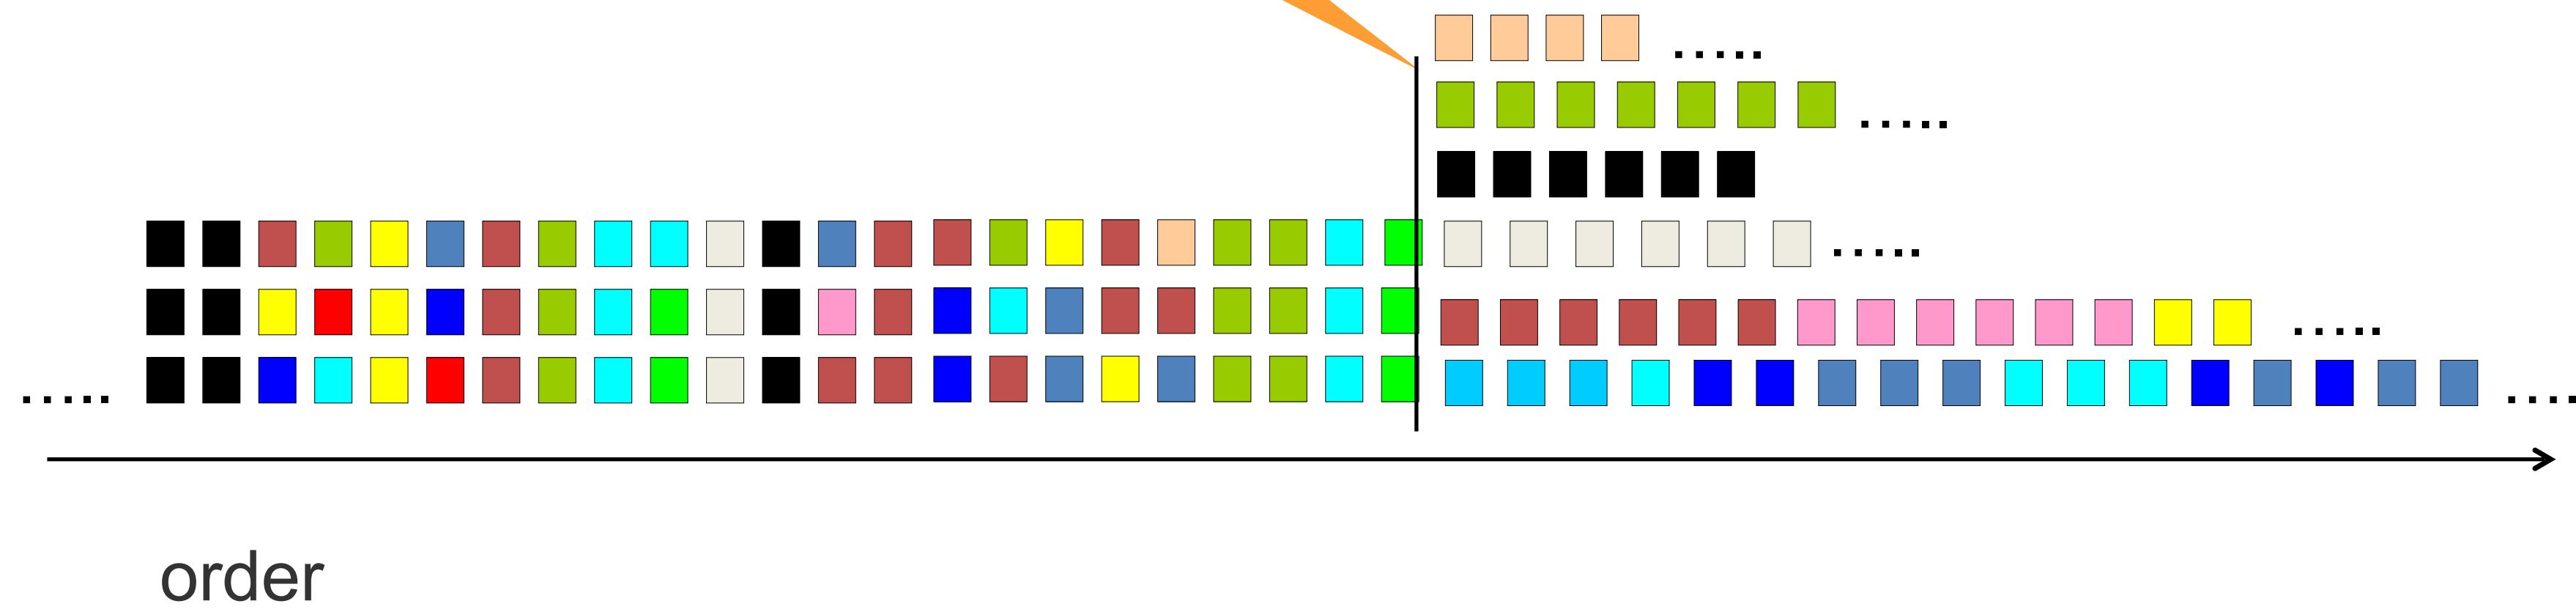

Who I Am

- Assistant Professor @ University of Tartu
- Maitre de Conférence @ INSA Lyon since 01/10/2021
- Maintainer of RSP4J library

What is Stream Processing

Sort out all the colours in the streams

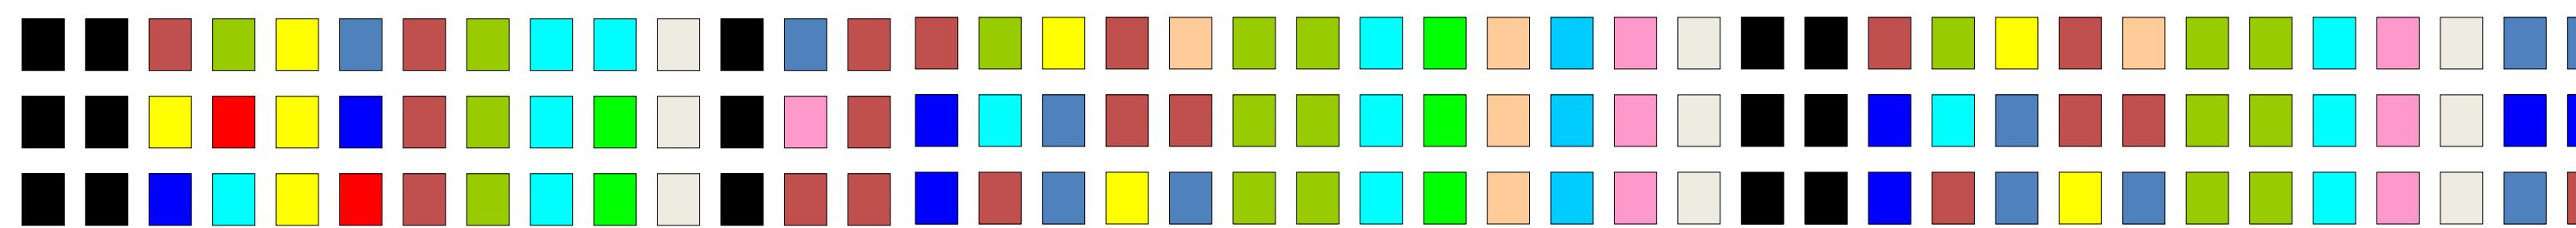

GIF 制作

Data Stream Management Systems

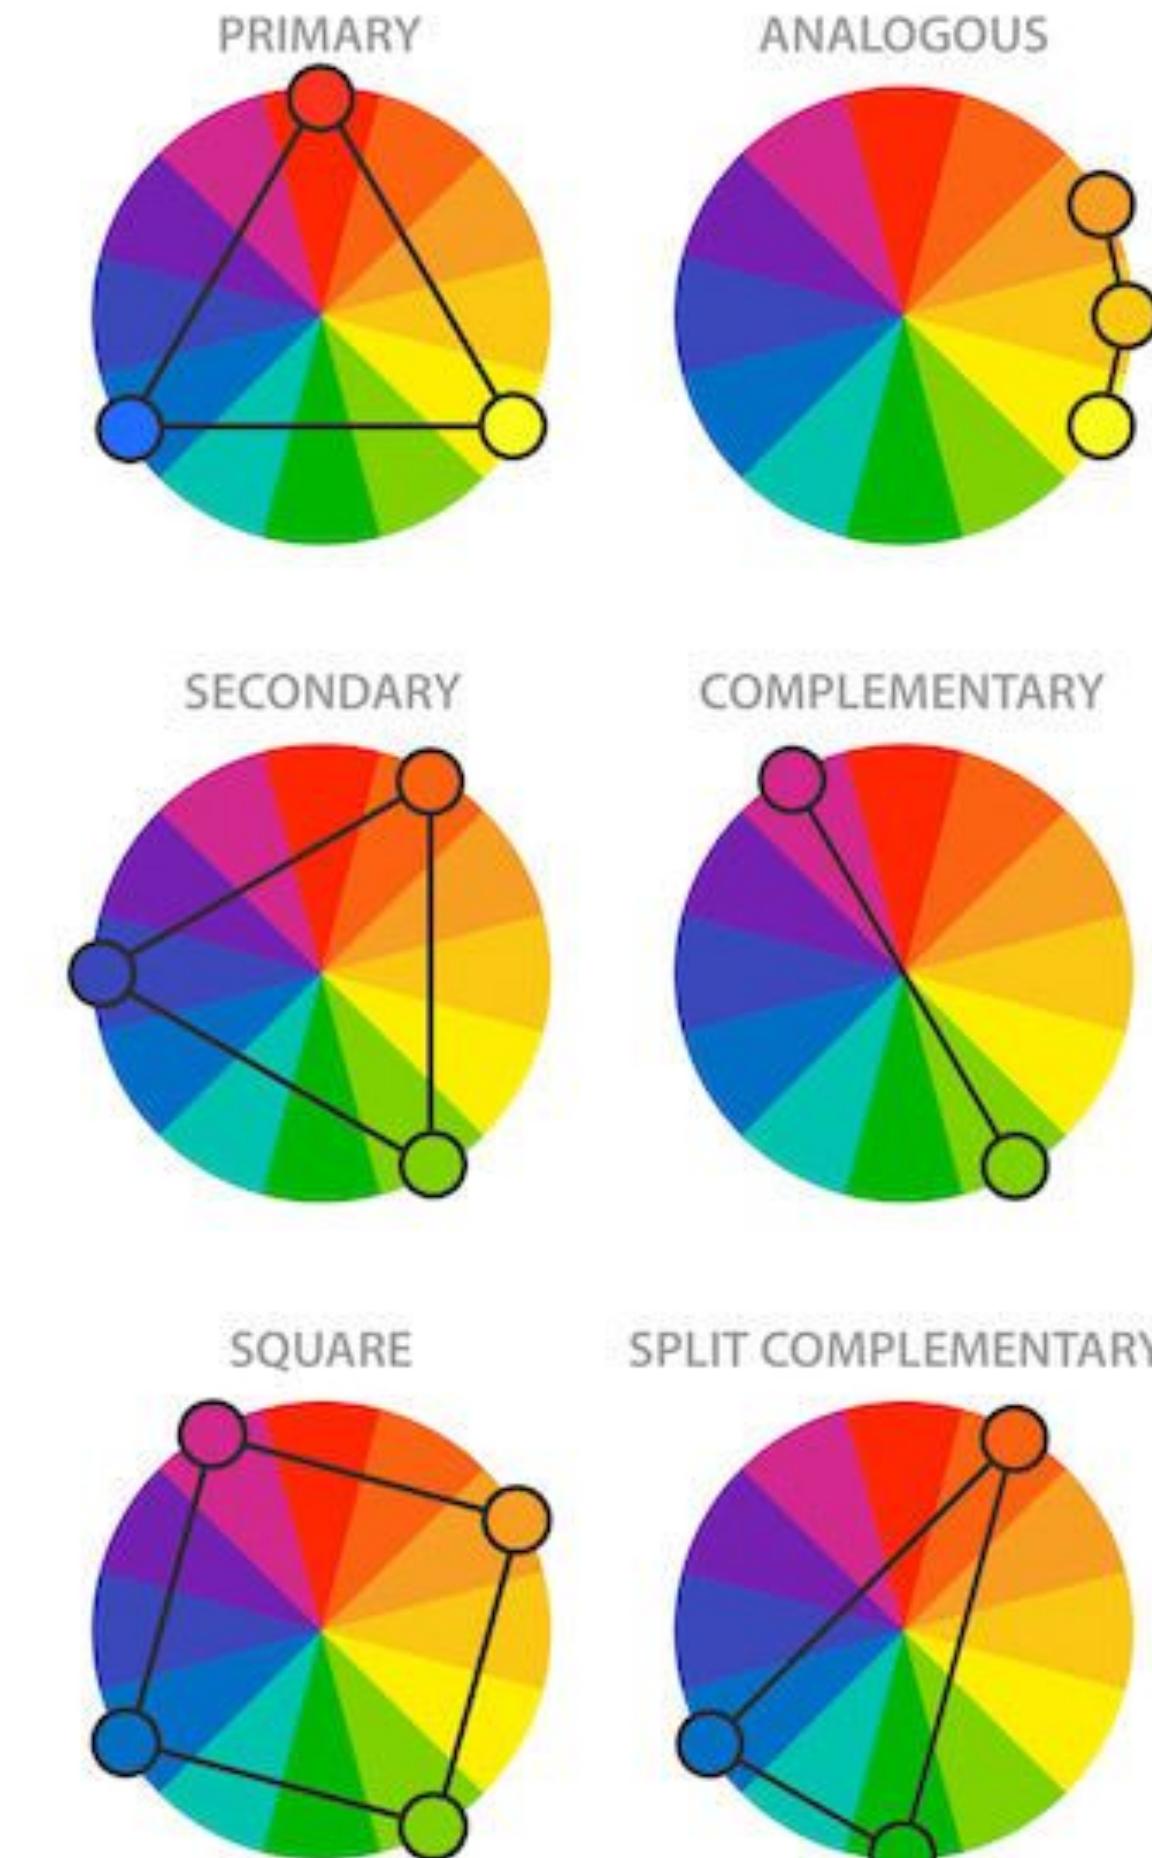

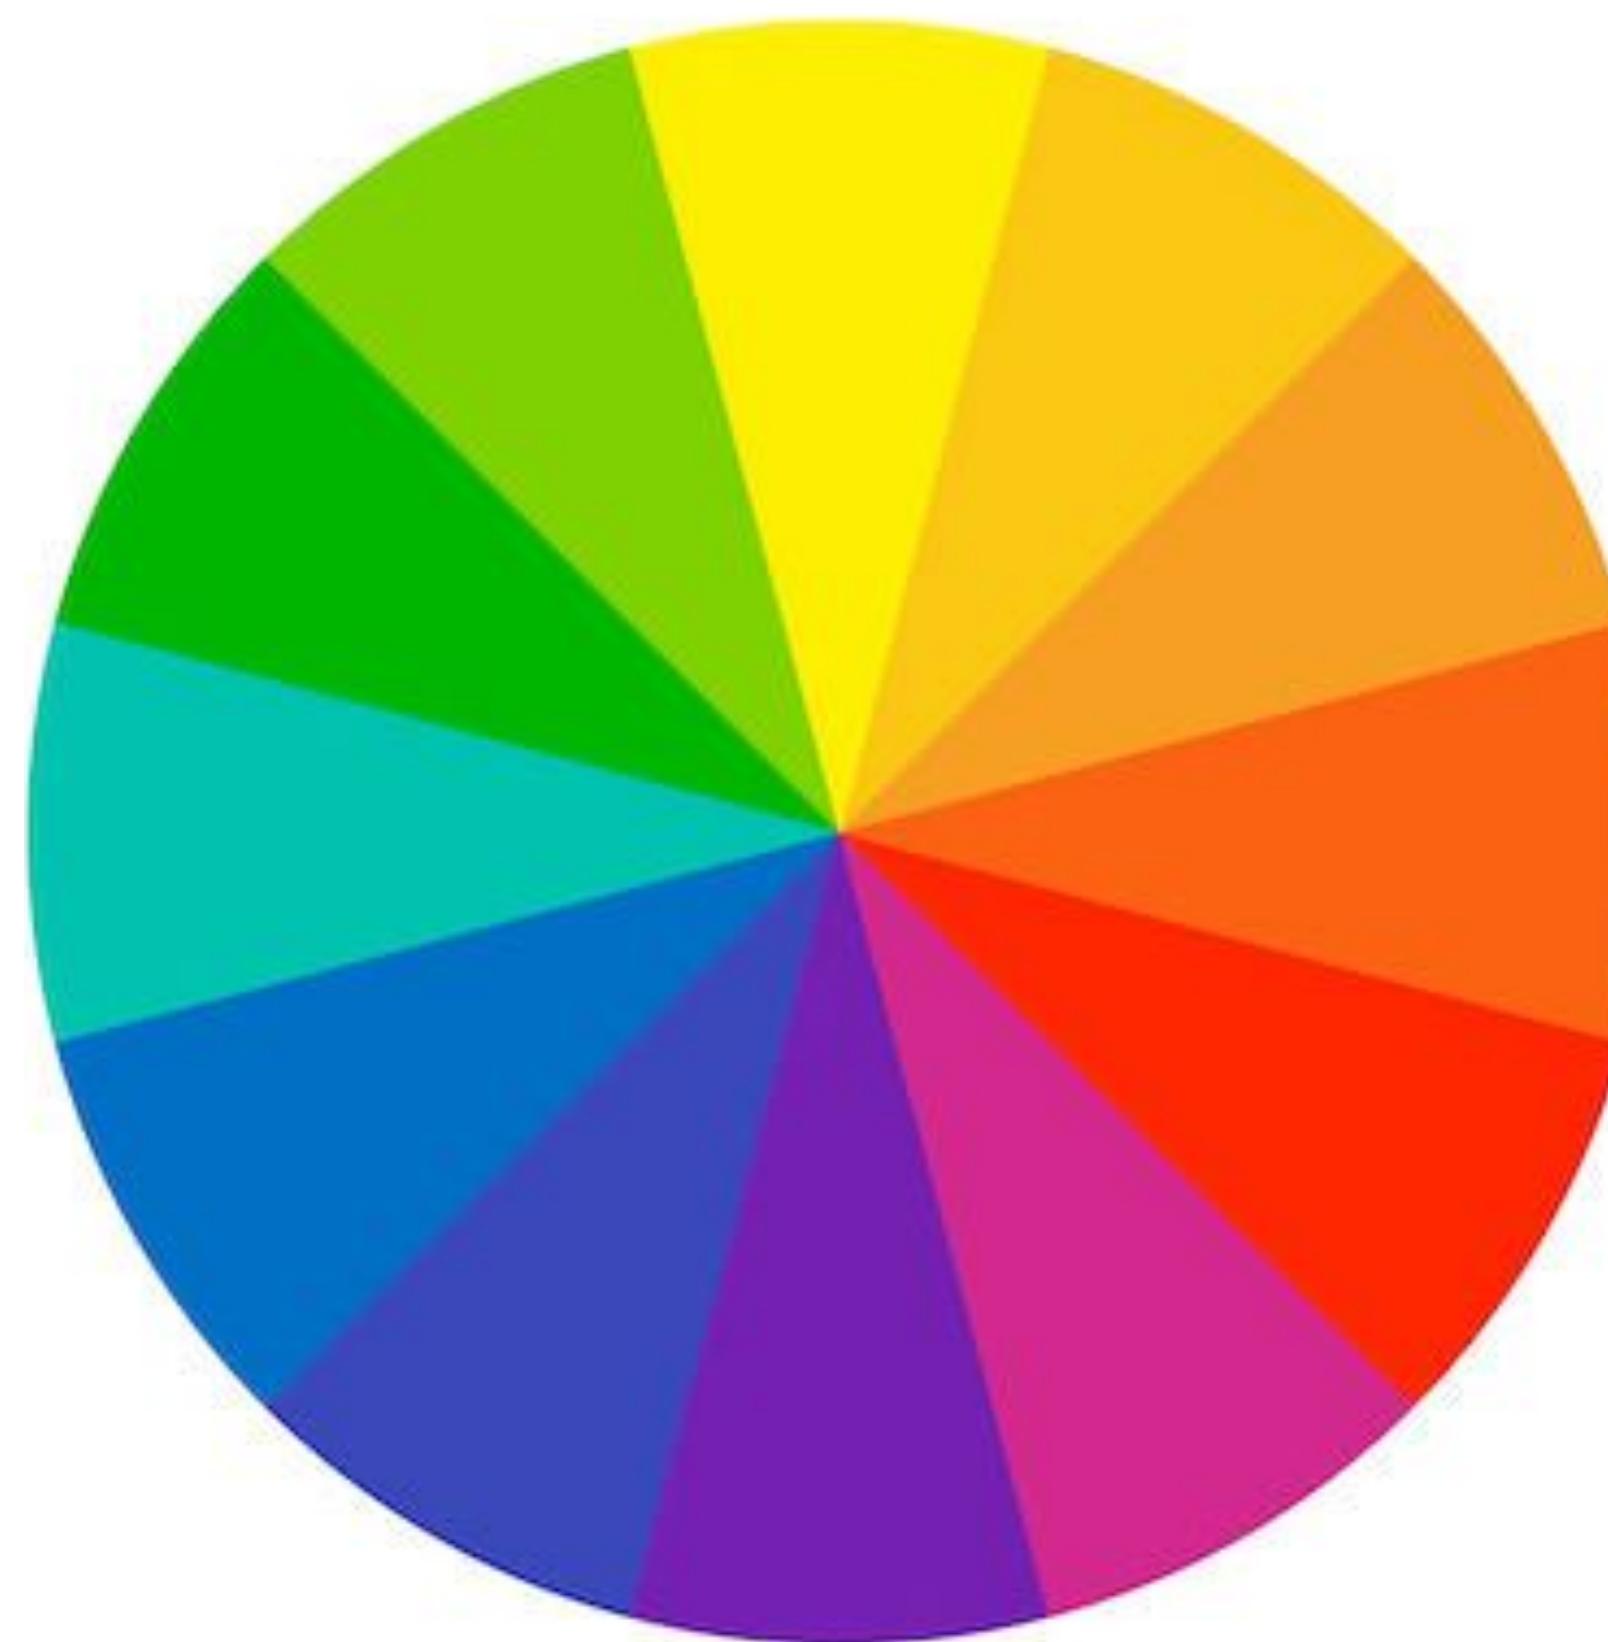

How many boxes, grouped by **color**, there are in the last minute?

(■, 15)

CityBench

StreamWatDiv

DEBS Gran Challenge

SRBench

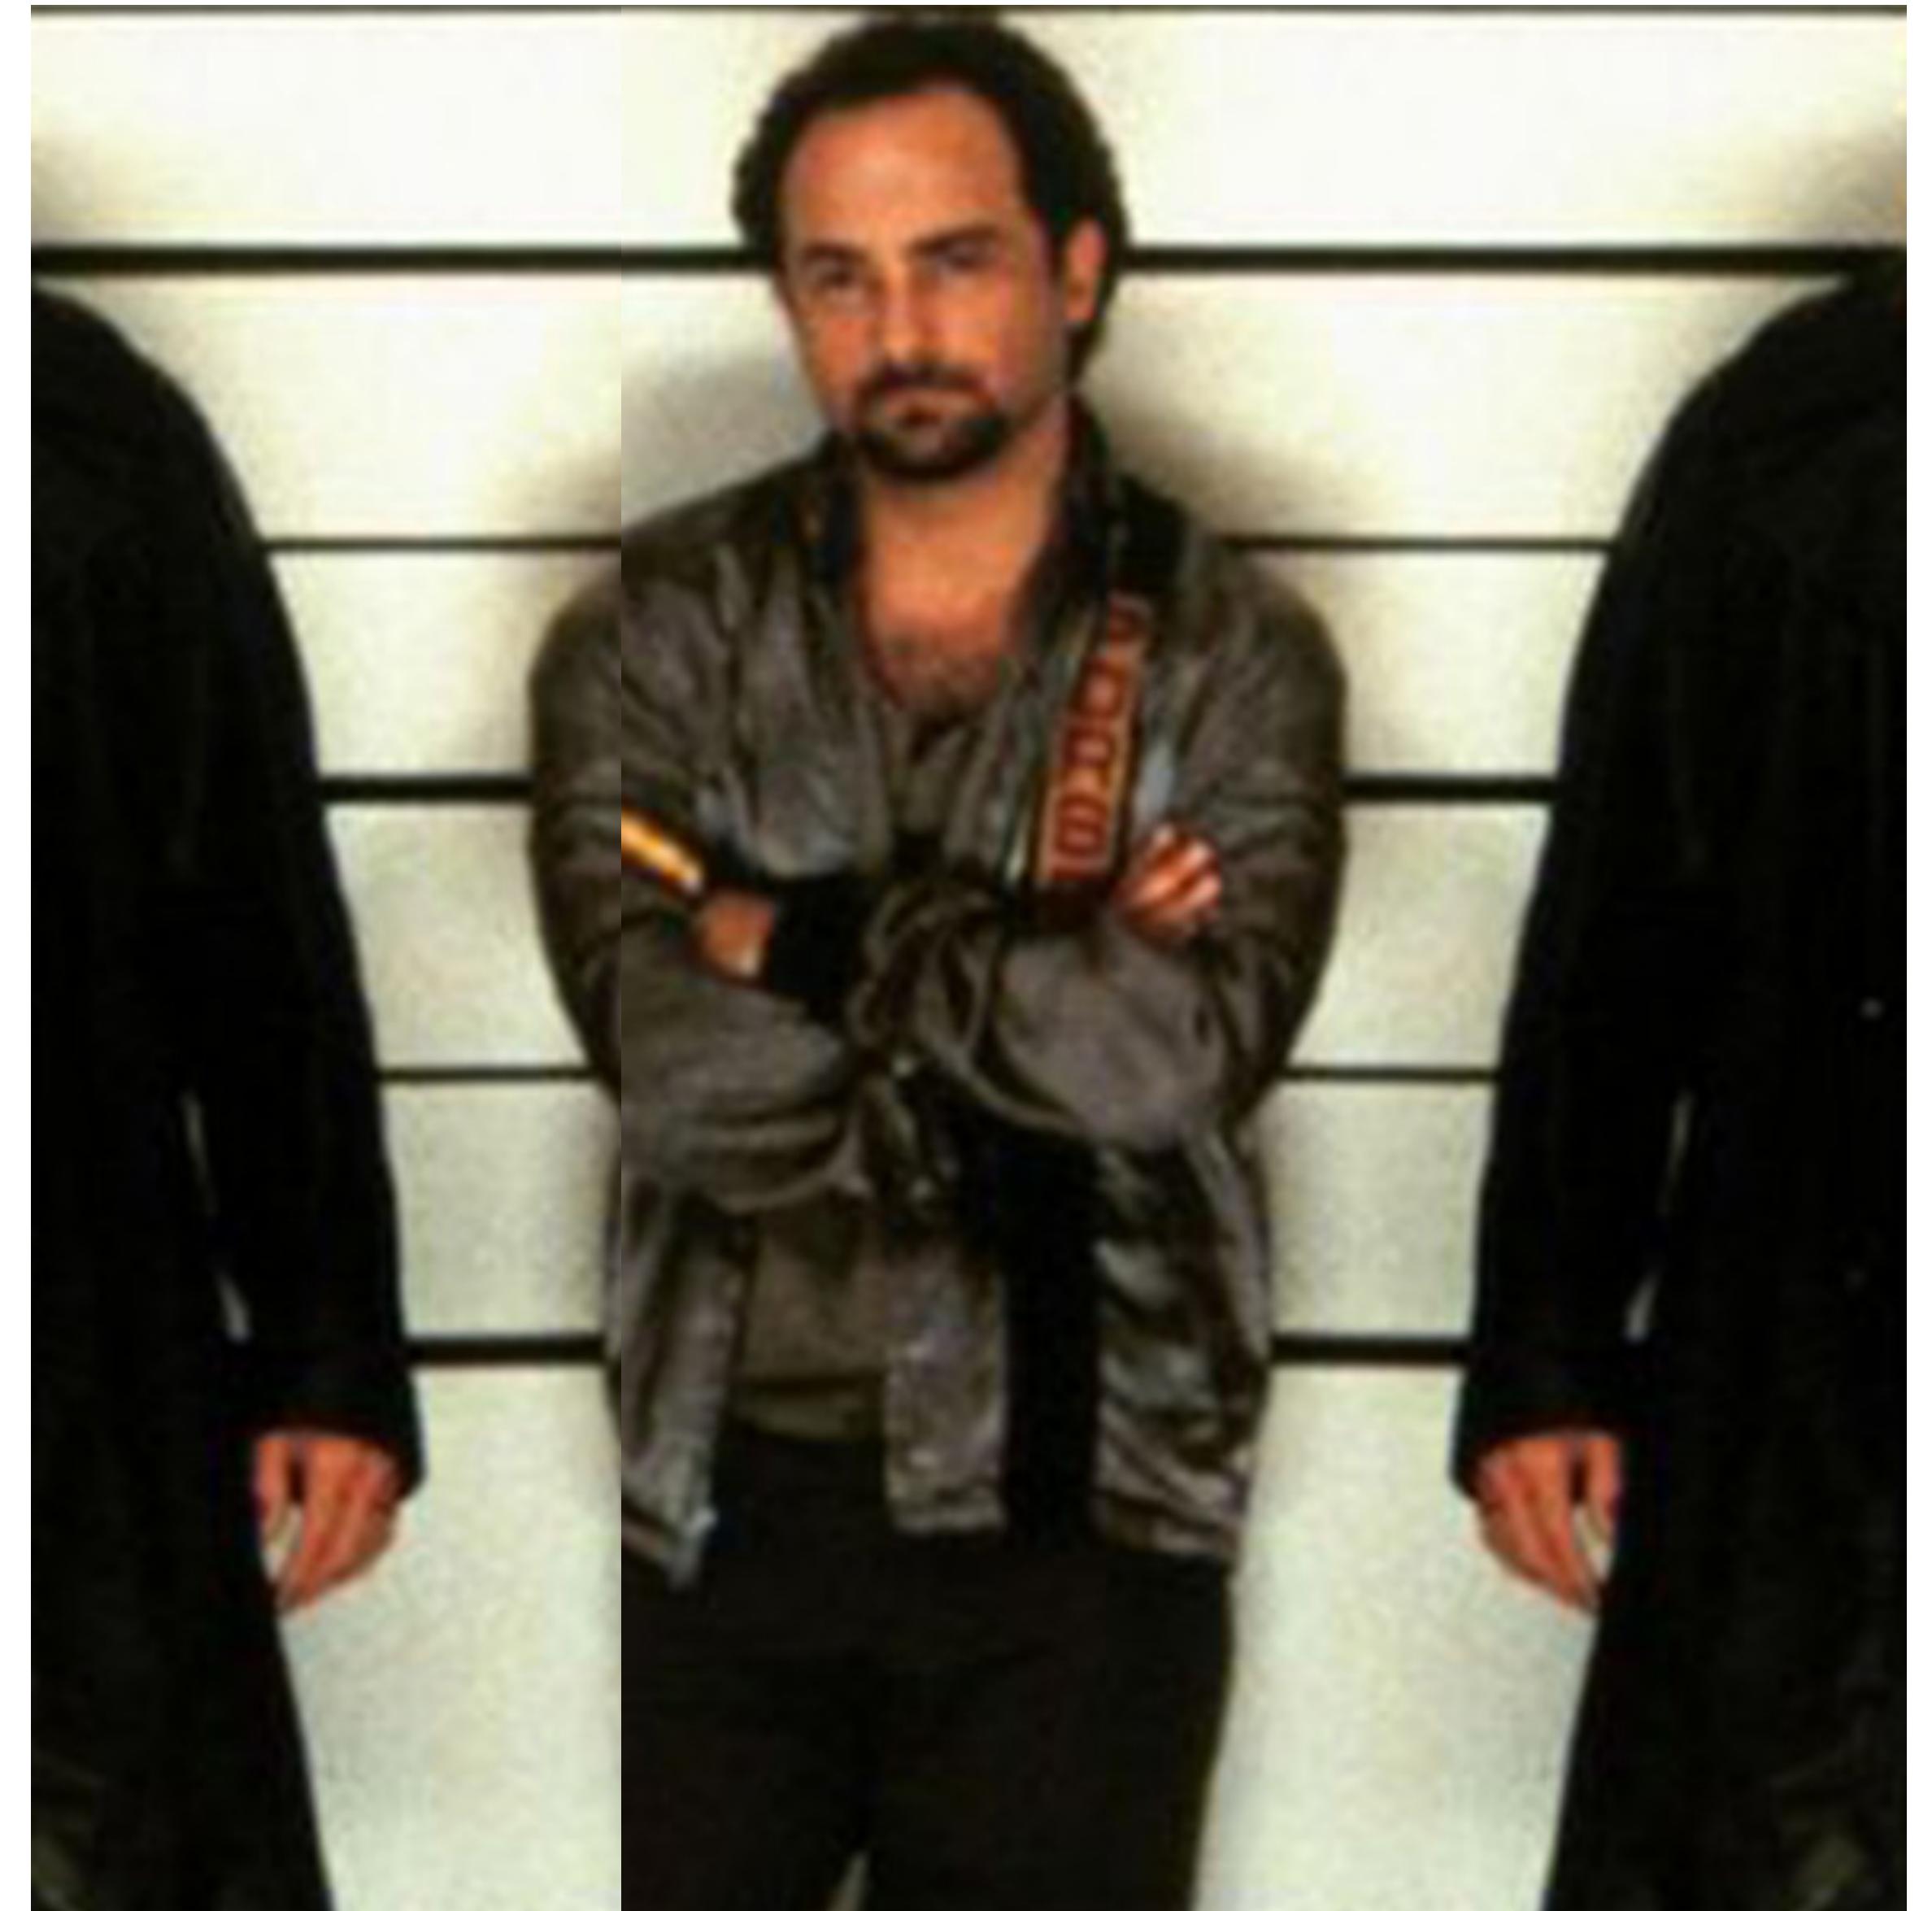

LSBench

LSBench

Le Phuoc et al.

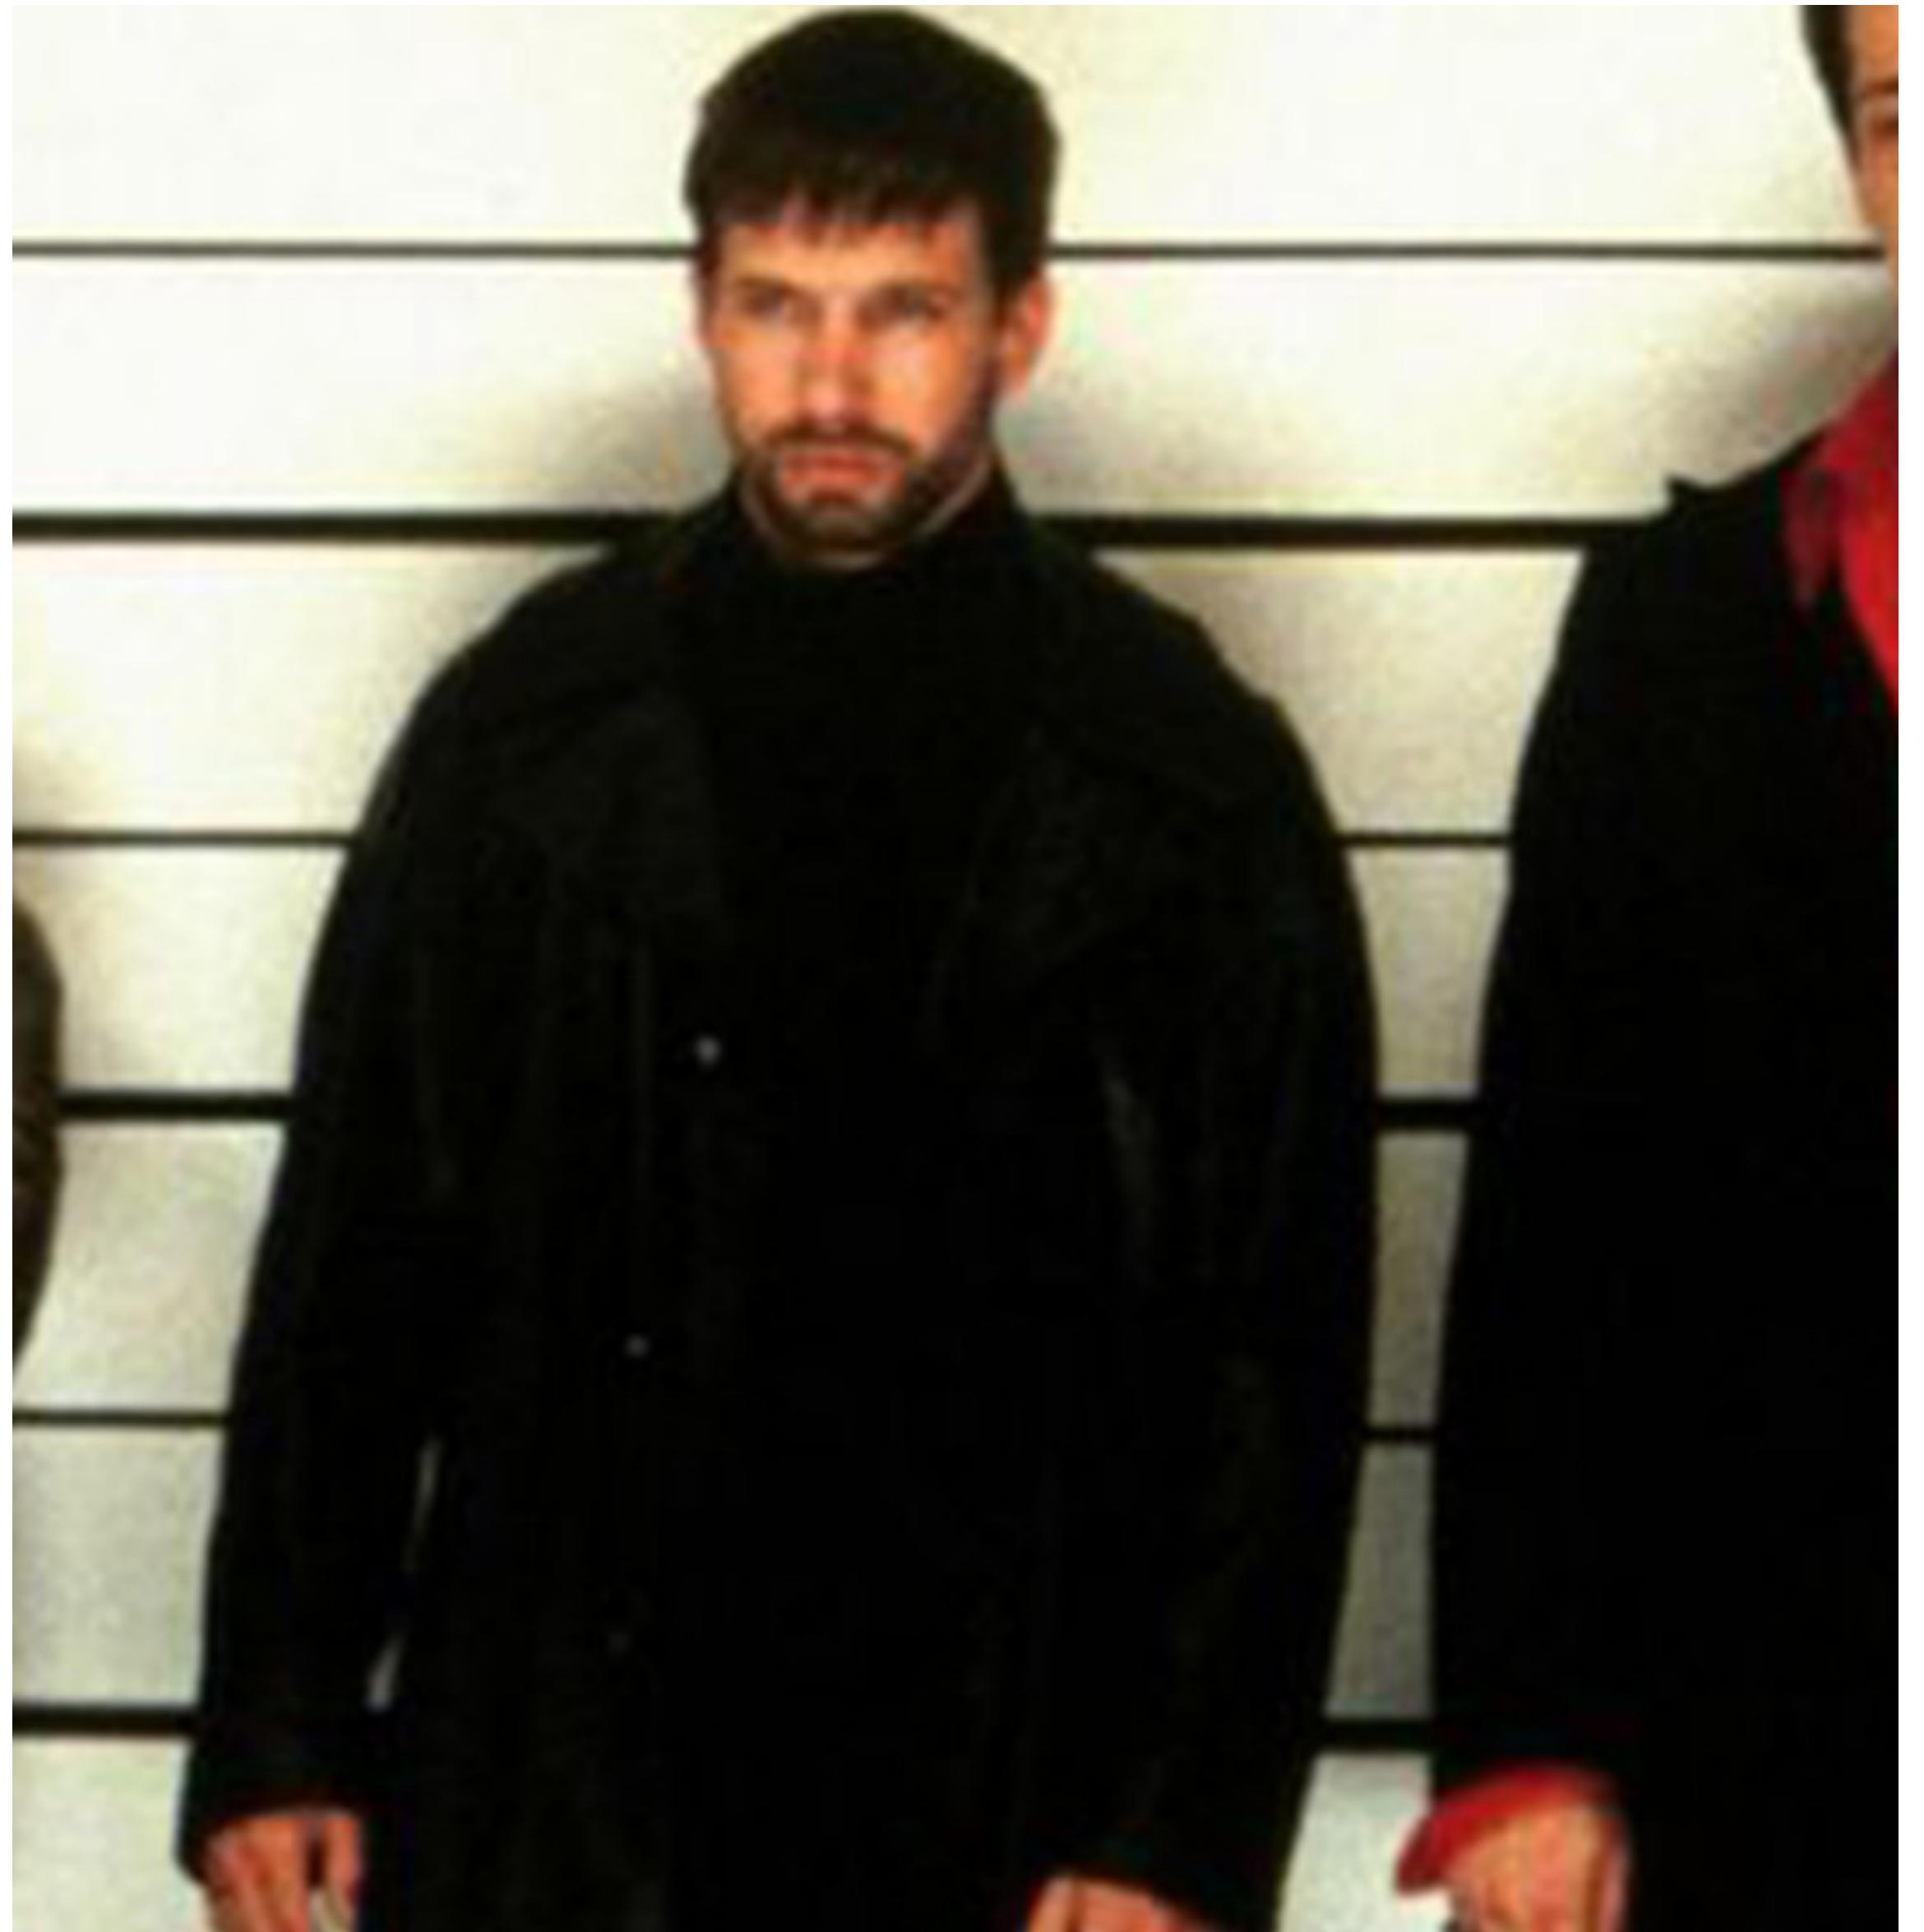

- Simple: Social Media (Synthetic)
- Relevant: Static + Streaming
- ~~Portable: not for the code~~
- Scalable: Generator
- KPI: Max Throughput & Memory

SRBench

Y Zhang et al.

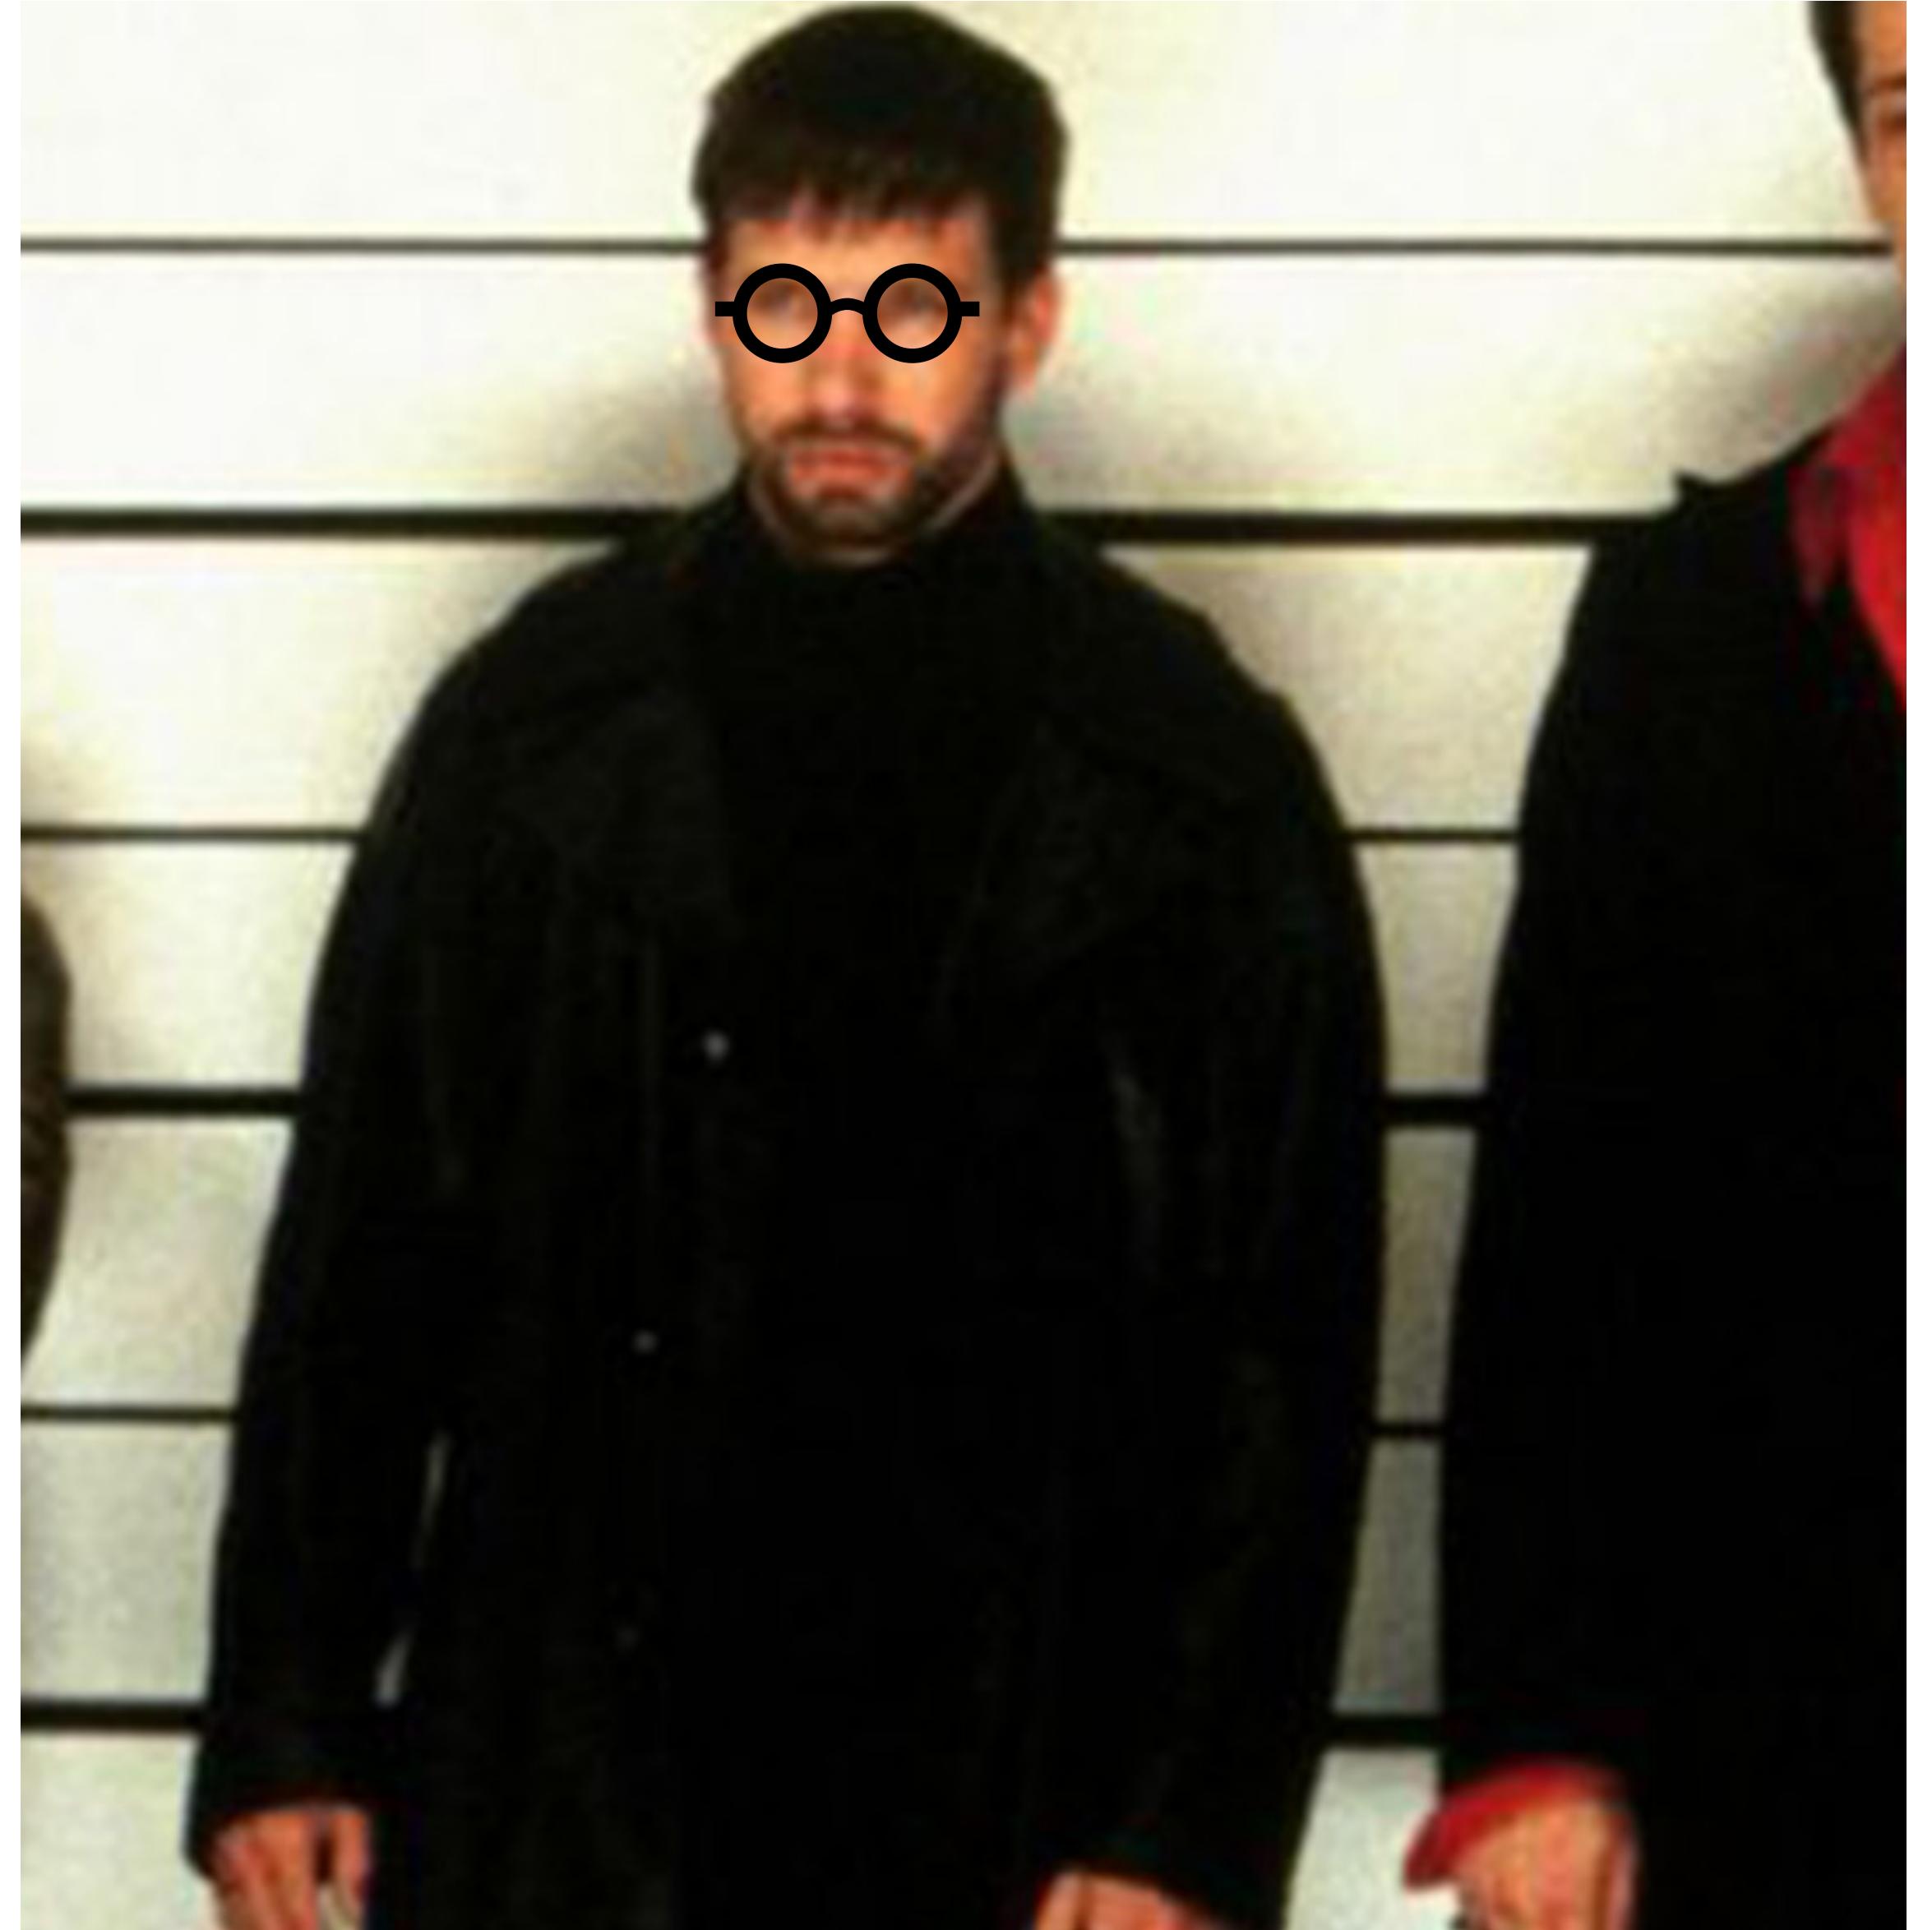

- Simple: Weather/Sensor
- Relevant: Real Data
- Portable: data only + query
- Scalable
- KPI: Query Coverage

(C)SRBench

Daniele Dell'Aglio et al.

- Simple: Weather/Sensor
- Relevant: Real Data
- Portable: data only + query
- ~~Scalable (a bit)~~: parametric query
- KPI: Query Coverage & Correctness

Citybench

MI Ali et al.

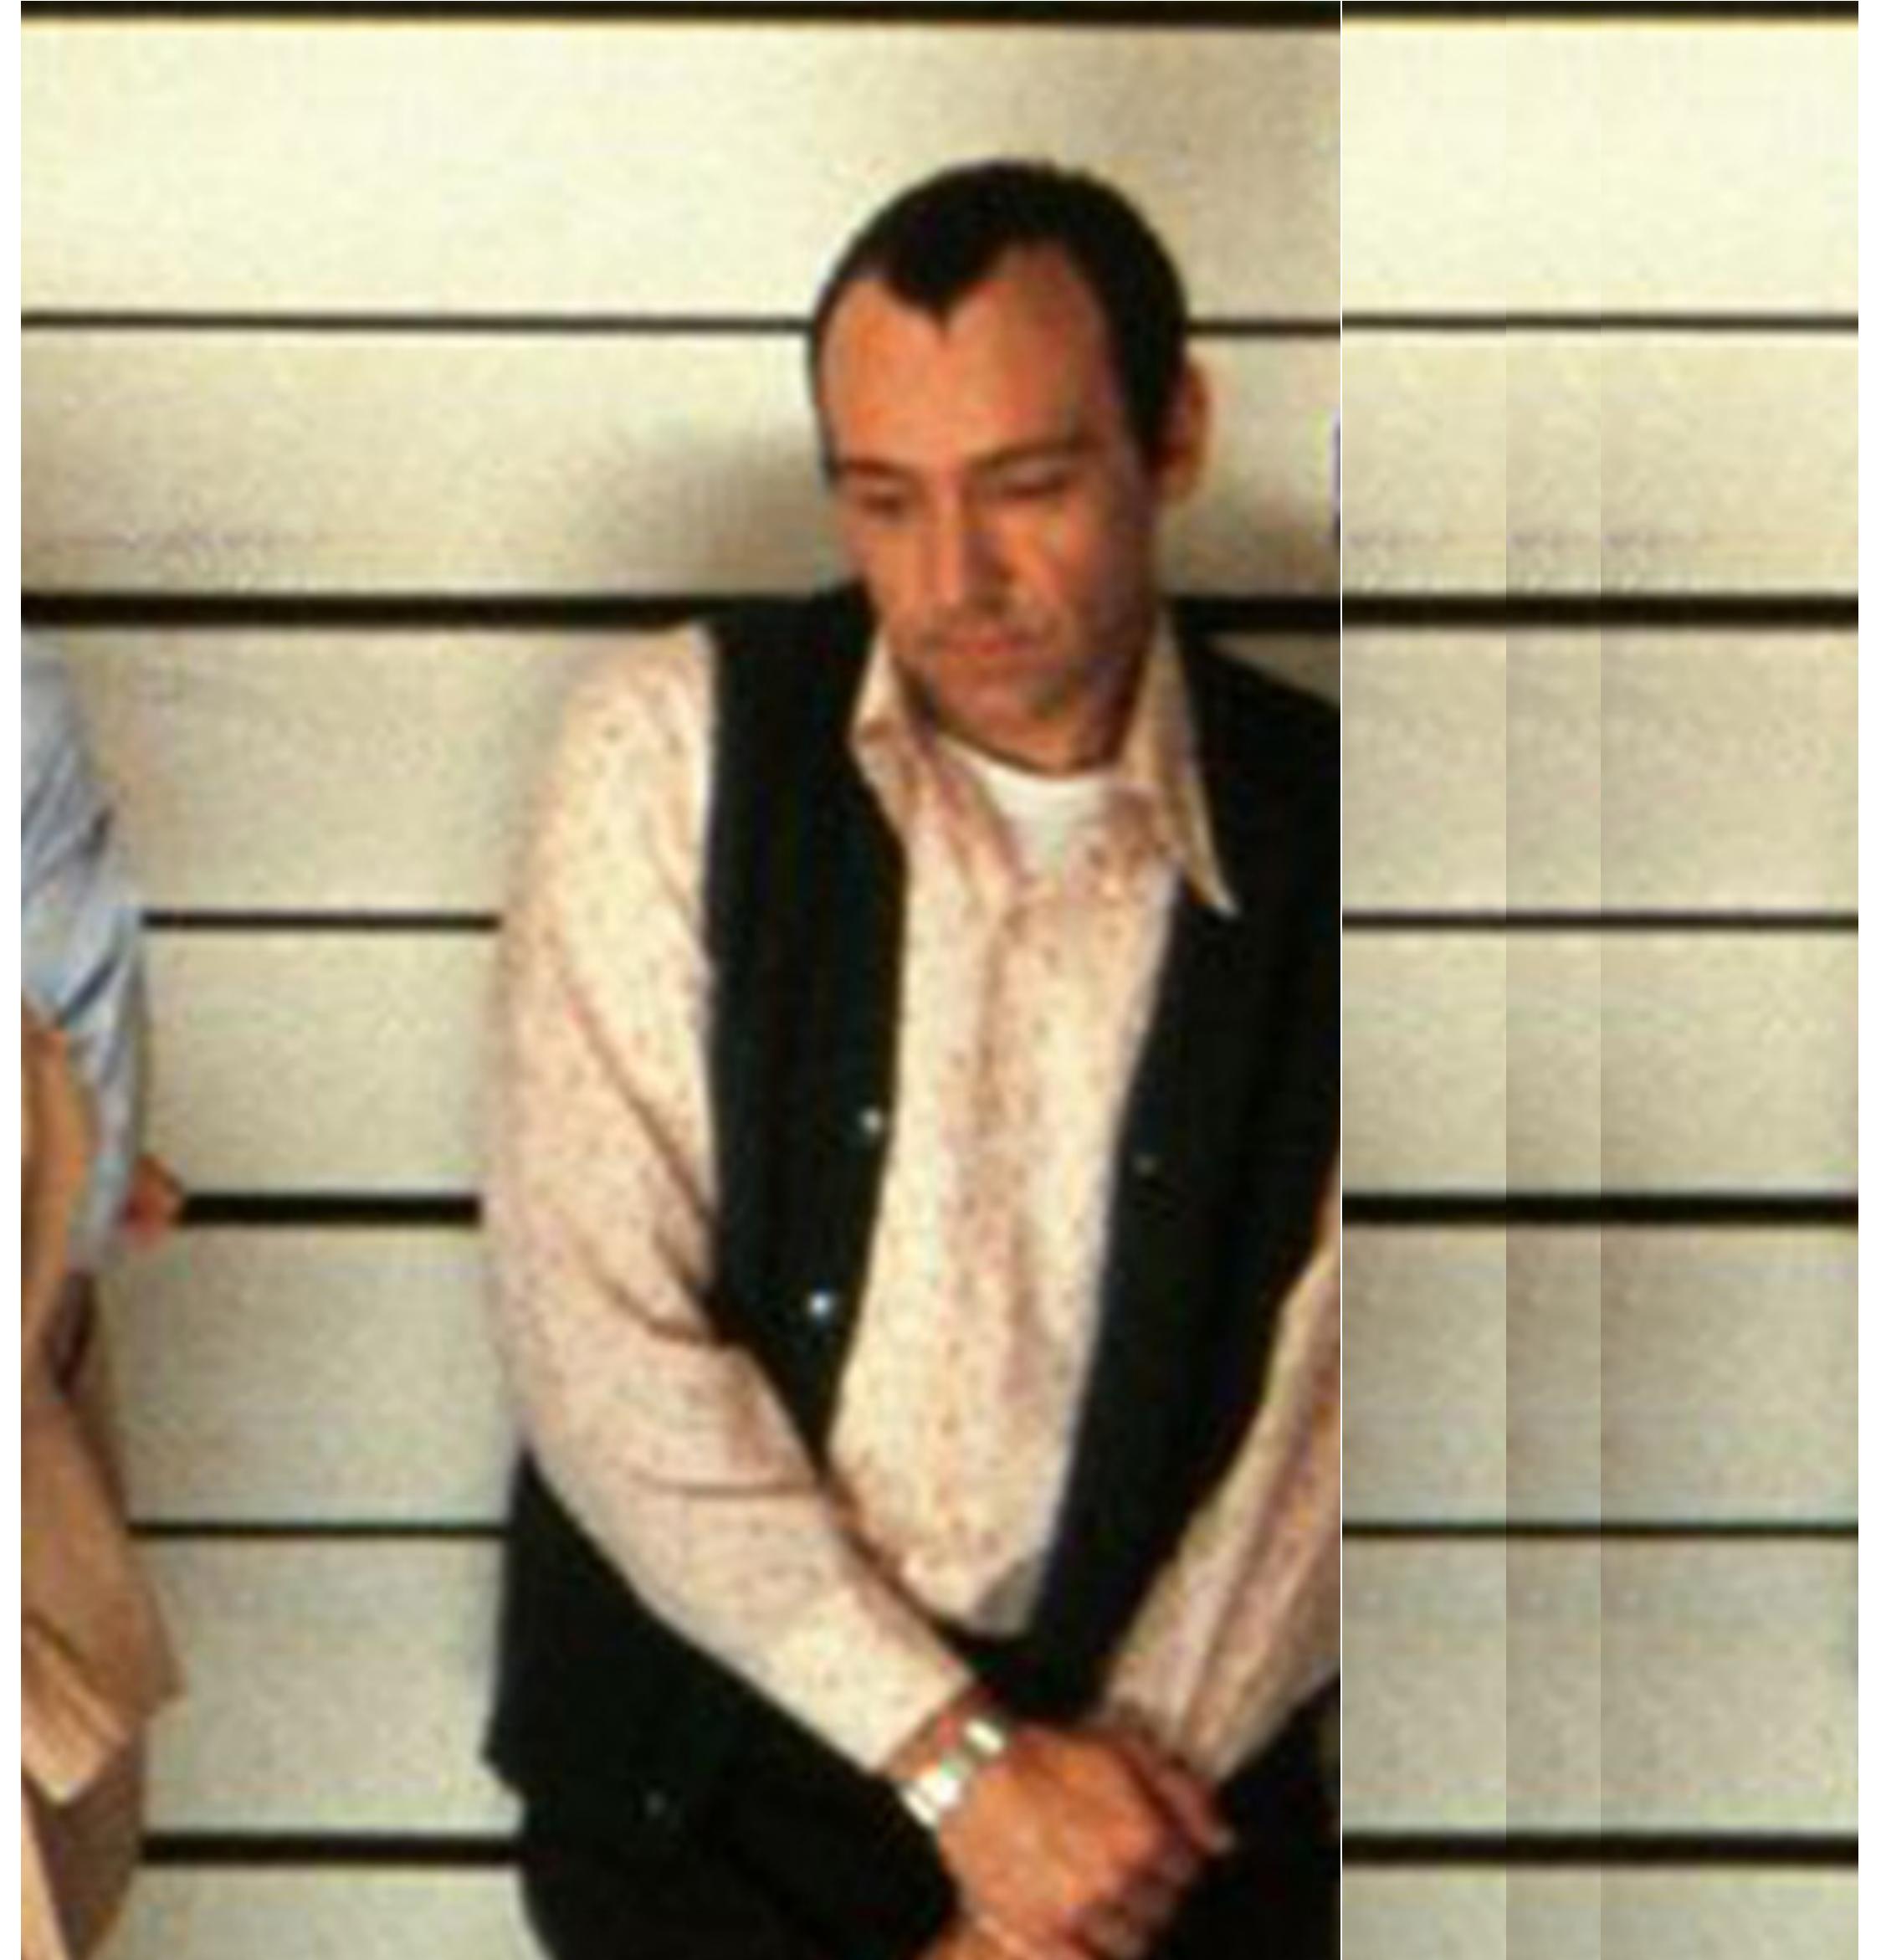

- Simple: Smart-City/sensor
- Relevant: Real Data, static and streaming
- Portable: generation is hard-coded
- Scalable: query generator

StreamWatDiv

L Gao et al.

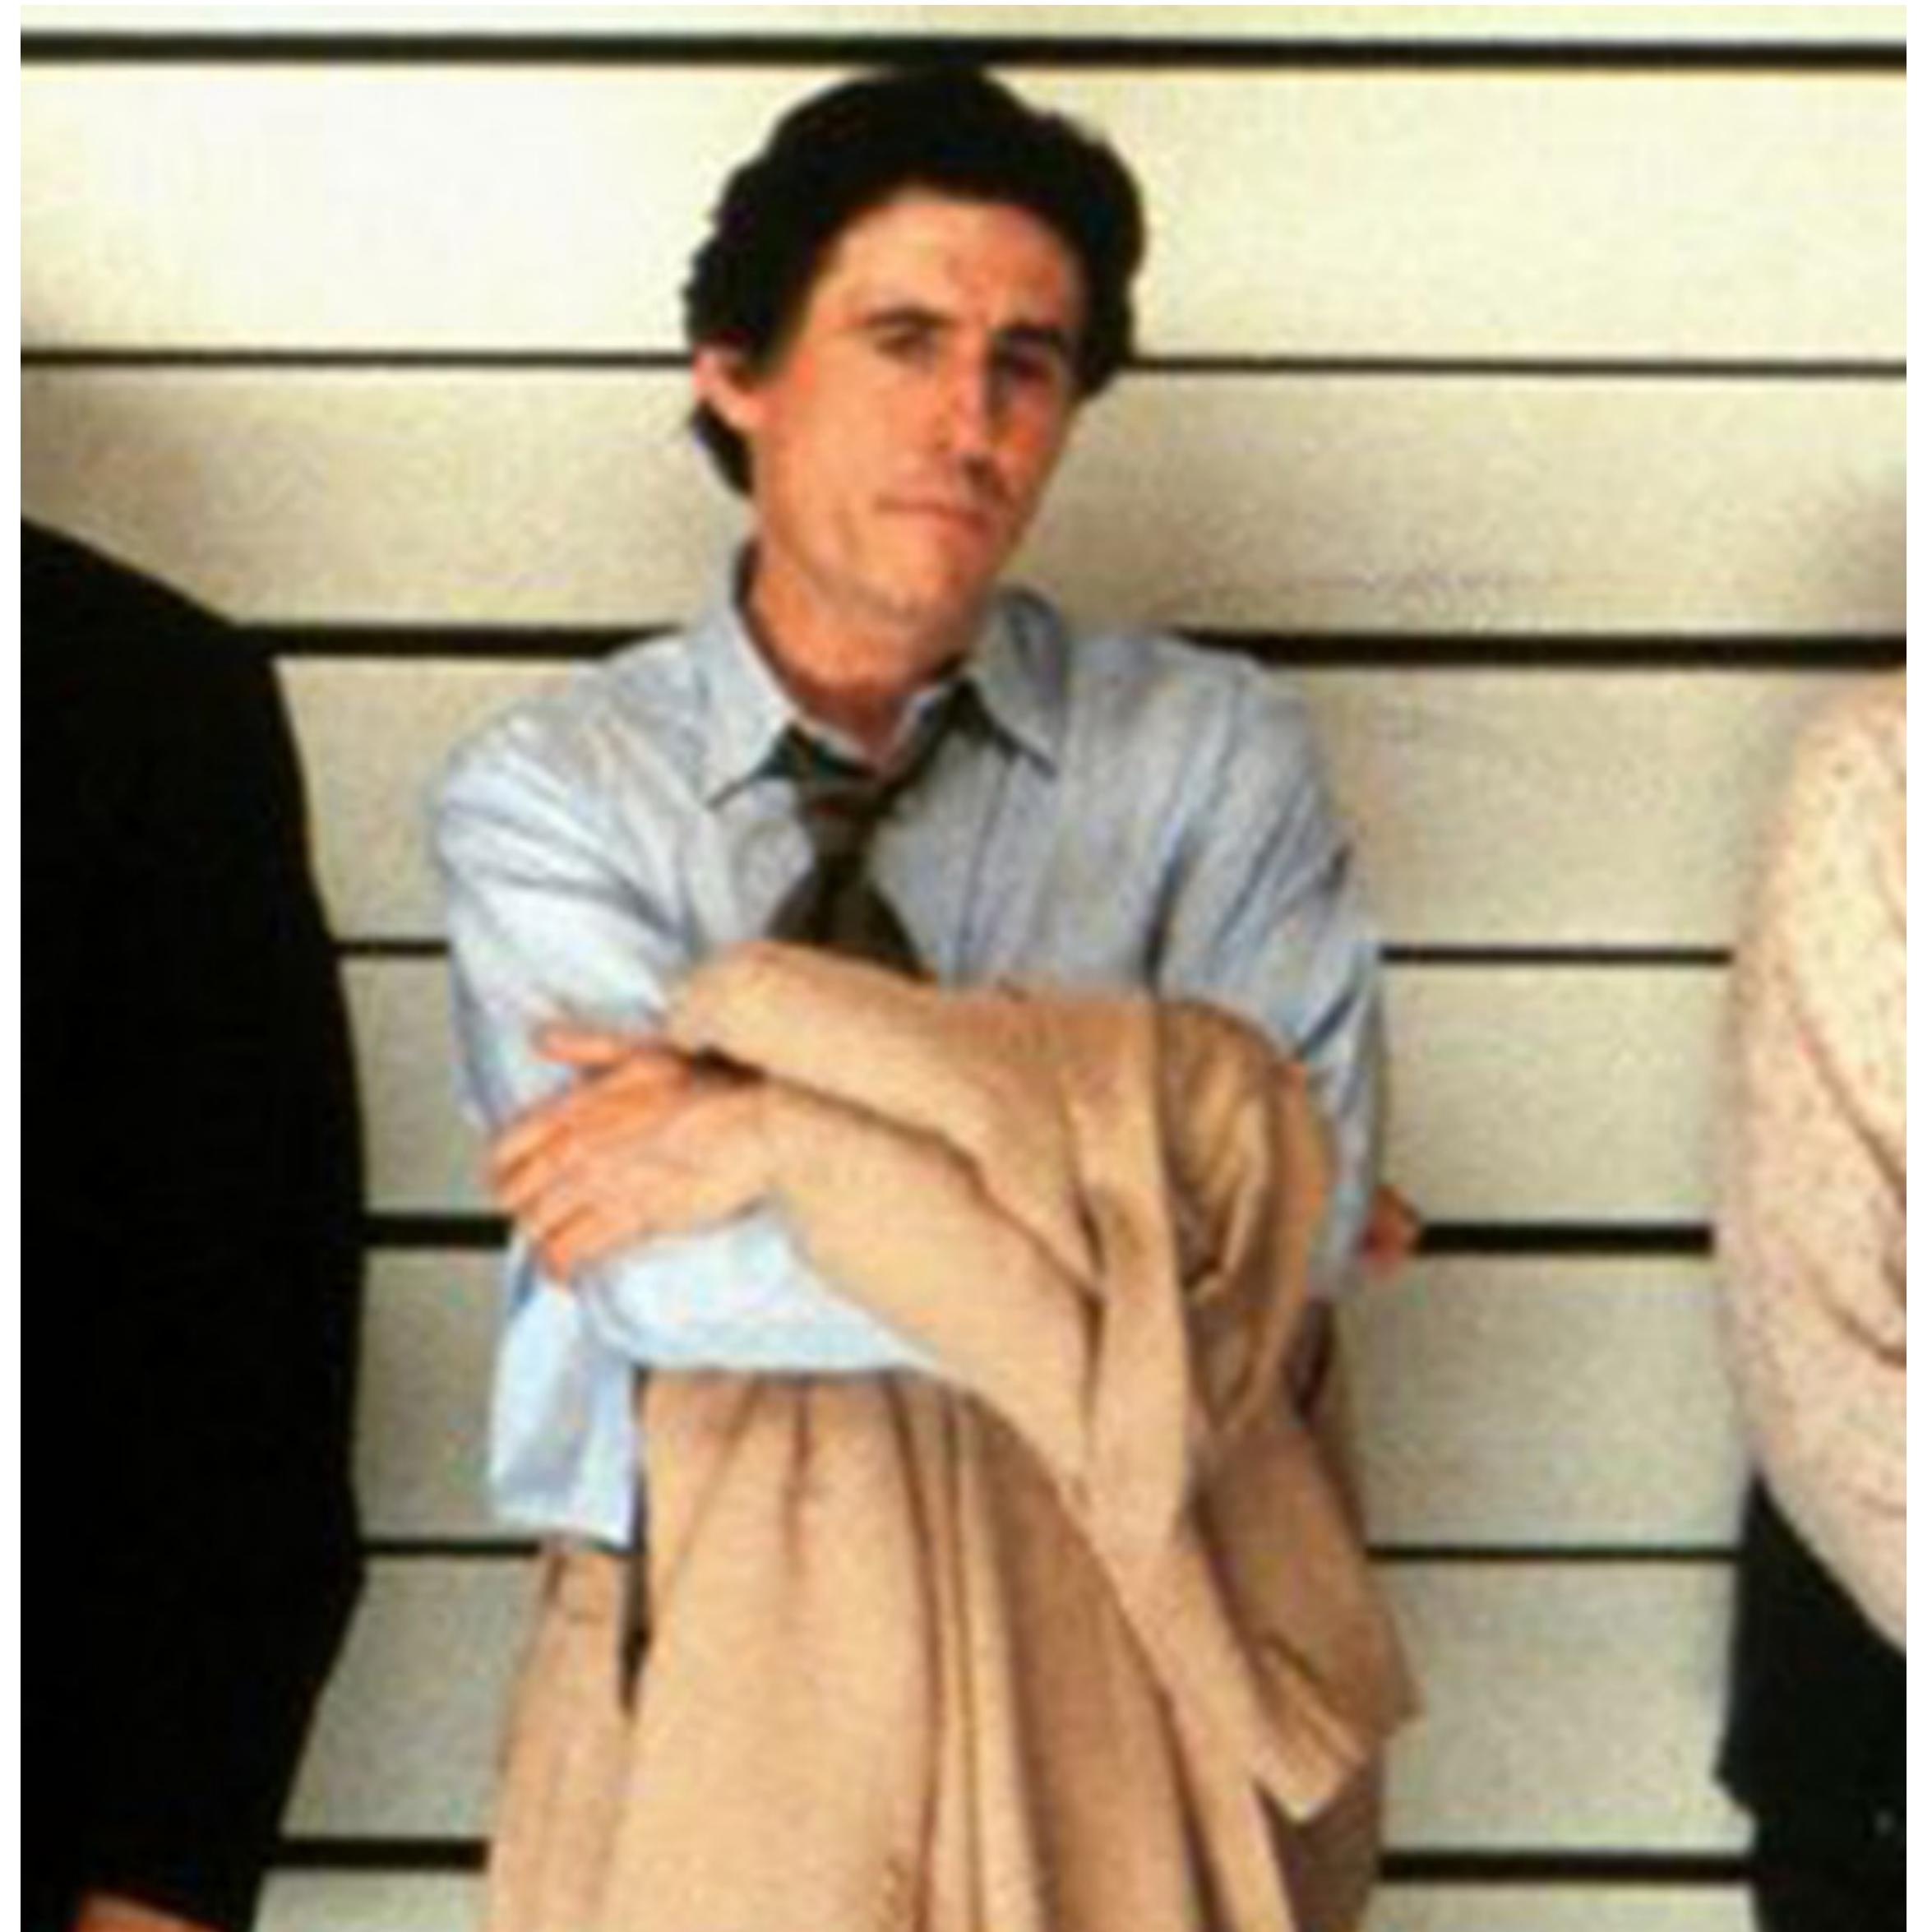

- Simple: User Activities
- Relevant: static + streaming
- Portable: test driver
- Scalable: Generator
- KPI: throughput & latency
- [https://dsg.uwaterloo.ca/watdiv/
stream-watdiv](https://dsg.uwaterloo.ca/watdiv/stream-watdiv)

DEBS Gran Challenge 2017

V Gulisano et al.

- Simple: User Activities
- Relevant: real data
- Portable: RDF
- Scalable
- KPI: throughput

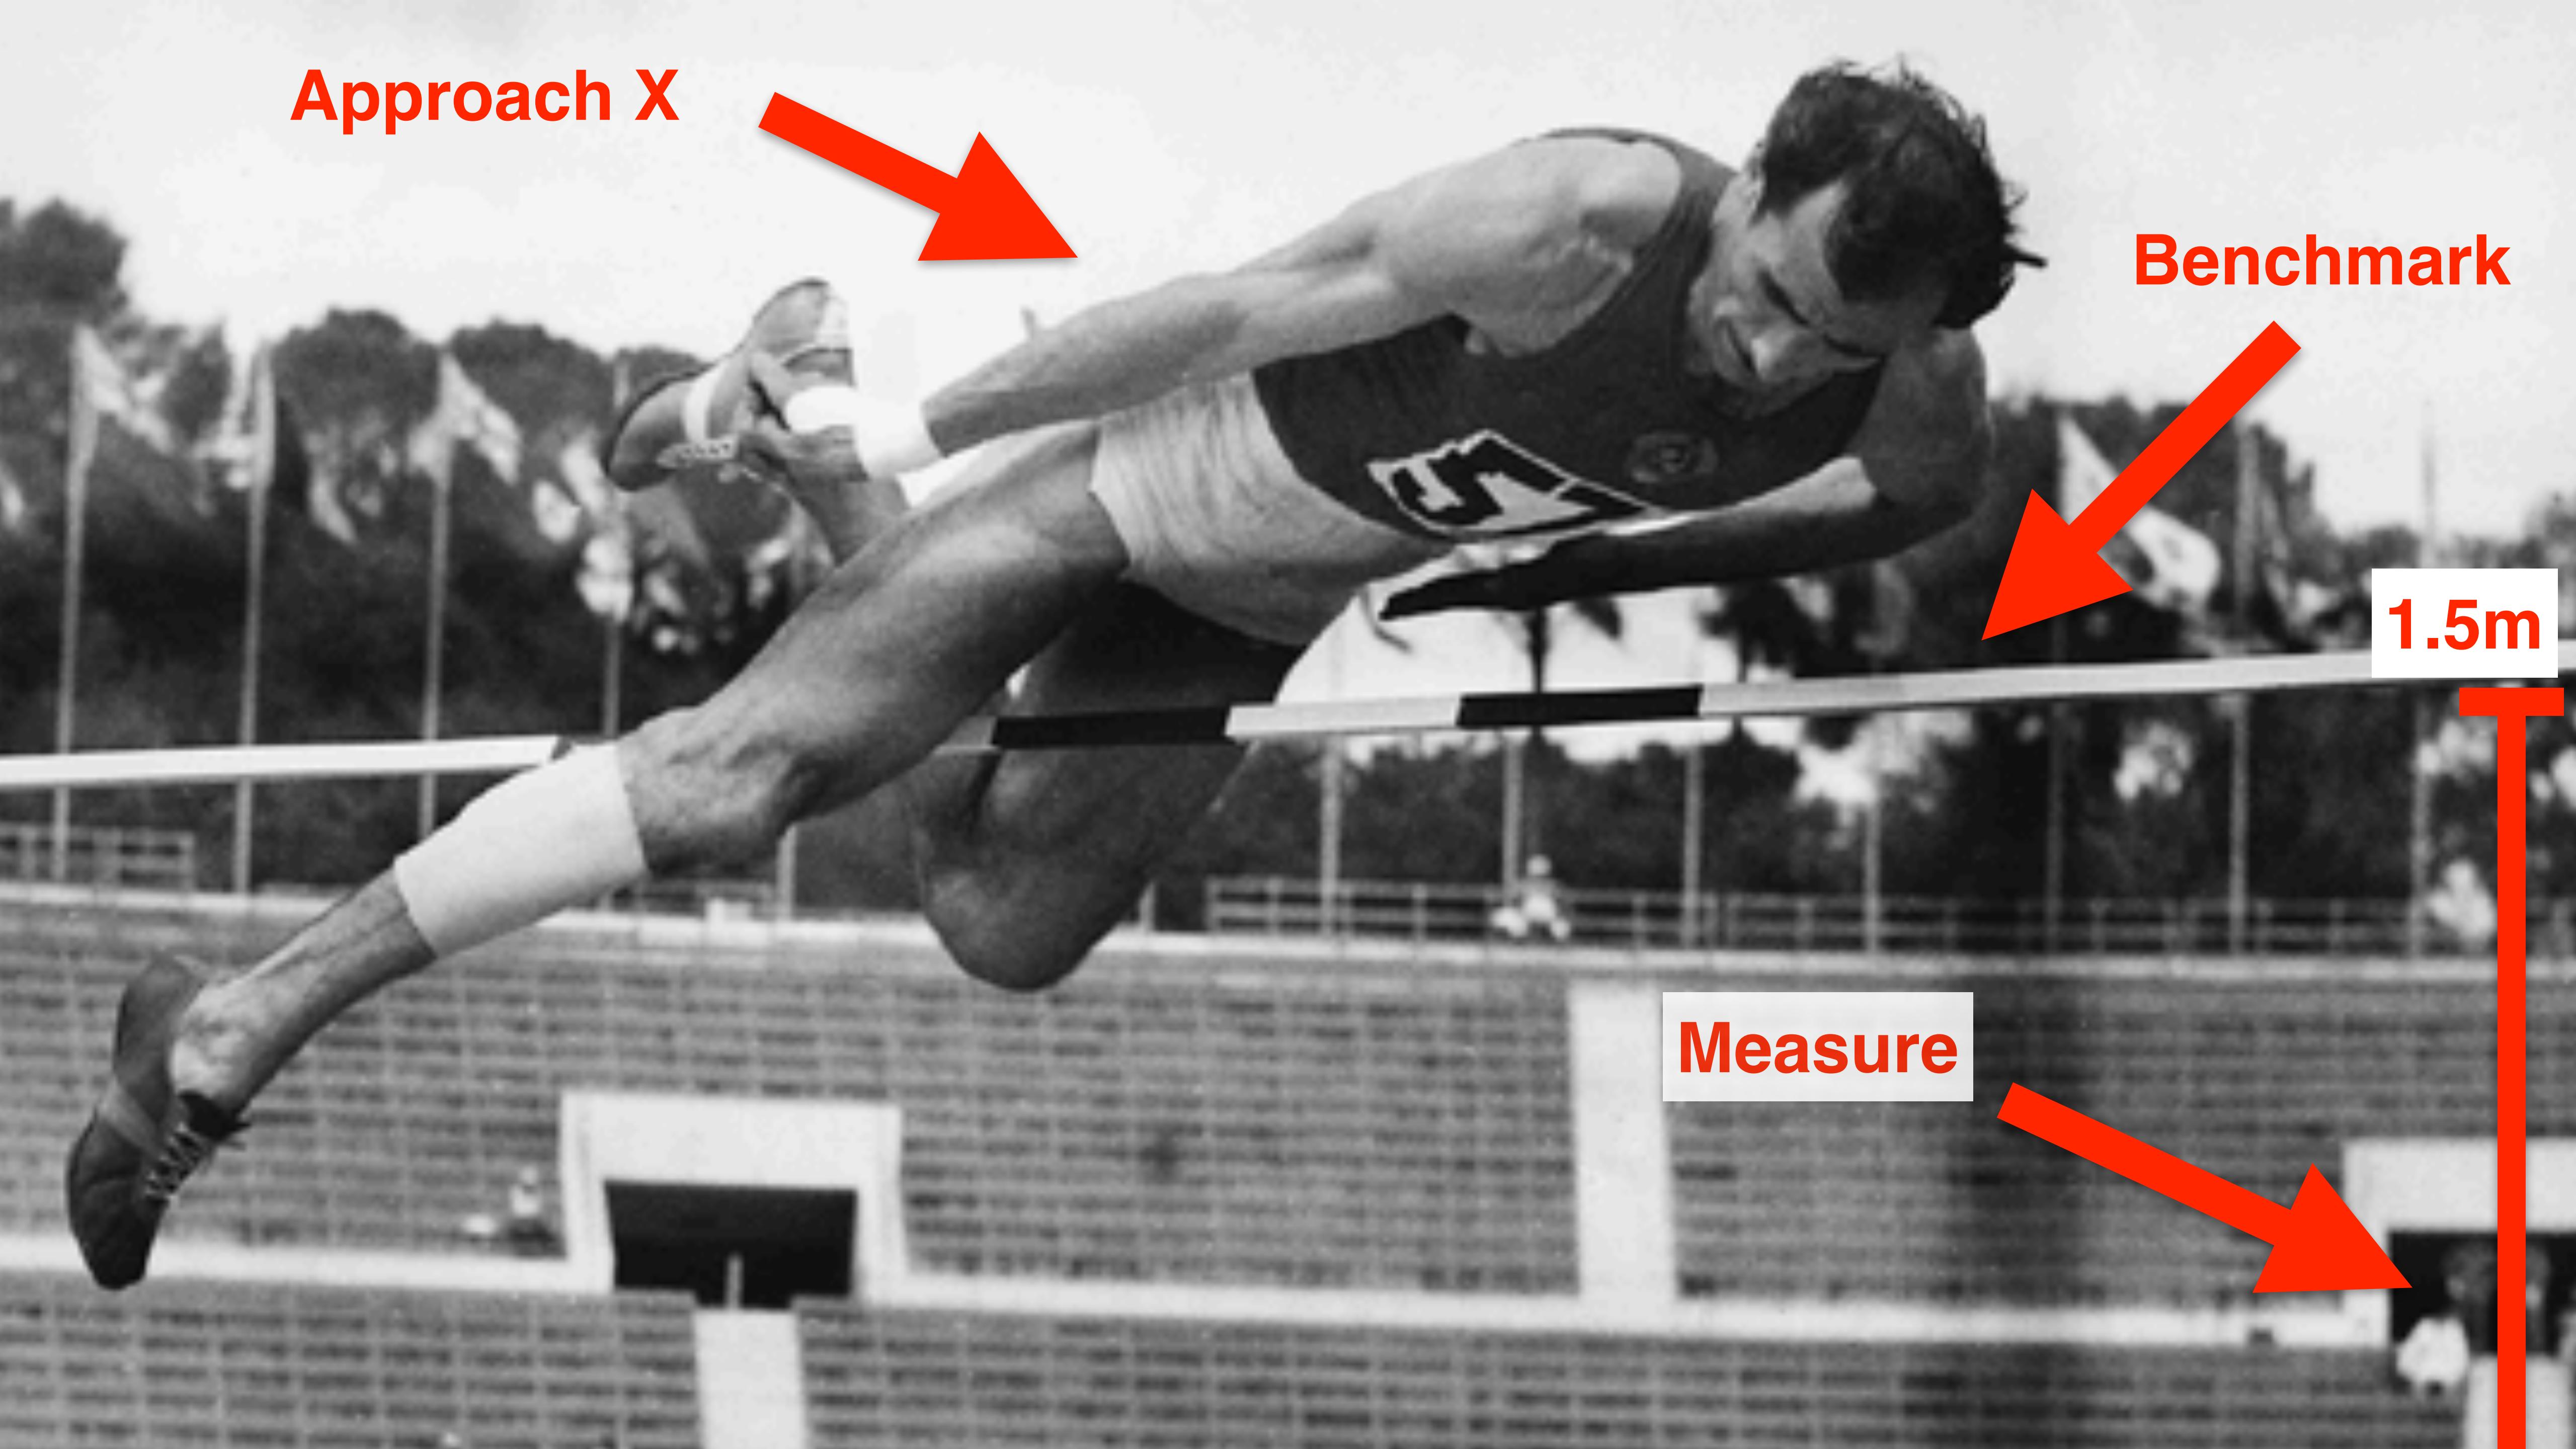

“

The goal of a **domain specific benchmark**
is to **foster technological progress**
by **guaranteeing a fair assessment.**

”

- Jim Gray, The Benchmark Handbook

for Database and Transaction Systems, 1993

Conclusion

Edges through time

- Fast prototyping of Graph Stream Processing engines
- Potentially a test driver for benchmarks
- ESWC 2021 Best Resource Paper award!
